

AirRhino HEPA

Negative Air Ready Air Handlers

Maintain the comfort of building occupants and job site employees by removing airborne dust, chemicals, gases and odors.

The most versatile and cost-effective unit of its kind. The AirRhino can be switched from particle filtration to chemical, gas and odor adsorption right on site.

The Electrocorp Advantage

Backed by unparalleled expertise in air quality control and a superior filtration system, Electrocorp cleaners are individually customized, industrial air filters that target airborne pollutants. Our units offer more filtration media than any other manufacturer, with the deepest carbon bed filters for chemicals, gases and odors control. These units provide meticulous air cleaning for environments where chemicals, gases, odors and biological contaminants are the main concern.
